

THE ADVISORS' INNER CIRCLE FUND III

PROSPECTUS

January 28, 2020

NICHOLAS PARTNERS SMALL CAP GROWTH FUND

Retail Shares: NPSYX
Institutional Shares: NPSGX

**INVESTMENT ADVISER:
NICHOLAS INVESTMENT PARTNERS, L.P.**

The U.S. Securities and Exchange Commission has not approved or disapproved these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by contacting your financial intermediary.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to inform it that you wish to continue receiving paper copies of your shareholder reports. If you invest directly with the Fund, you can inform the Fund that you wish to continue receiving paper copies of your shareholder reports by

calling 1-833-810-7345. Your election to receive reports in paper will apply to all funds held with your financial intermediary if you invest through a financial intermediary.

TABLE OF CONTENTS

This prospectus has been arranged into different sections so that you can easily review this important information. For detailed information about the Fund, please see:

Nicholas Partners Small Cap Growth Fund

Investment Objective

The Nicholas Partners Small Cap Growth Fund (the “Fund”) seeks long-term capital appreciation.

Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)

Redemption Fee (as a percentage of amount redeemed, if shares redeemed have been held for less than 30 days)	2.00%
--	-------

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	Retail Shares		Institutional Shares	
Management Fees		0.75%		0.75%
Distribution and/or Service (12b-1) Fees		0.25%		None
Other Expenses		<u>0.72%</u>		<u>0.72%</u>
Shareholder Servicing Fee	0.10%		0.10%	
Other Operating Expenses	0.62%		0.62%	
Total Annual Fund Operating Expenses		1.72%		1.47%
Less Fee Reductions and/or Expense Reimbursements ¹		<u>(0.48)%</u>		<u>(0.48)%</u>
Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements		1.24%		0.99%

¹ Nicholas Investment Partners, L.P. (the “Adviser”) has contractually agreed to waive fees and reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions, 12b-1 Fees, acquired fund fees and expenses and non-routine expenses (collectively, “excluded expenses”)) from exceeding 0.99% of the average daily net assets of each of the Fund’s share classes until January 31, 2021 (the “expense cap”). In addition, the Adviser may receive from the Fund the difference between the Total Annual Fund Operating Expenses (not including excluded expenses) and the expense cap to recoup all or a portion of its prior fee waivers or expense reimbursements made during the rolling three-year period preceding the recoupment if at any point Total Annual Fund Operating Expenses (not including excluded expenses) are below the expense cap (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment. This agreement may be terminated: (i) by the Board of Trustees (the “Board”) of The Advisors’ Inner Circle Fund III (the “Trust”), for any reason at any time; or (ii) by the Adviser, upon ninety (90) days’ prior written notice to the Trust, effective as of the close of business on January 31, 2021.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses (including one year of capped expenses in each period) remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Retail Shares	\$126	\$495	\$888	\$1,990
Institutional Shares	\$101	\$418	\$757	\$1,716

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual Fund operating expenses or in the example, affect the Fund’s performance. For the fiscal period from January 16, 2019 (commencement of Fund operations) to September 30, 2019, the Fund’s portfolio turnover rate was 65% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in securities of small-capitalization companies. This investment policy may be changed by the Fund upon 60 days’ prior written notice to shareholders.

The Fund considers small-capitalization companies to be those with market capitalizations within the range of the market capitalizations of companies in the Russell 2000 Growth Index at the time of purchase. While the market capitalization range of the Russell 2000 Growth Index changes throughout the year, as of September 30, 2019, the market capitalization range of the index was between \$2.7 million and \$7.3 billion.

The Fund primarily invests in common stocks, including initial public offerings (“IPOs”), but may also invest in convertible securities, real estate investment trusts (“REITs”), exchange-traded funds (“ETFs”) and American Depositary Receipts (“ADRs”), which are certificates typically issued by a bank or trust company that represent ownership interests in securities of non-U.S., including emerging market, companies. The Fund may, from time to time, focus its investments in one or more sectors.

In selecting investments to buy for the Fund, the Adviser uses a disciplined investment process that combines quantitative research tools with traditional fundamental research to seek to identify, and make timely investments in, dynamically growing companies (i.e. companies that are undergoing positive changes and have sustainable business fundamentals that enable the companies to finance their growth and manage such changes advantageously, and are poised to exceed market expectations). Such companies typically have the following characteristics: revenue and/or earnings acceleration, upward earnings revisions, a well-executed business plan, favorable competitive positioning, increasing market share, and a proven management team. The Adviser may sell a security for a variety of reasons, including if there is a change in the company’s fundamentals, there

is an unexplainable deterioration in the security's trading market, the market capitalization of the company exceeds twice the market capitalization of the company in the Russell 2000 Growth Index with the largest market capitalization, or the Adviser identifies a more attractive investment opportunity.

Due to its investment strategy, the Fund may buy and sell securities frequently. This may result in higher transaction costs and more capital gains tax liabilities than a fund with a buy and hold strategy.

Principal Risks of Investing in the Fund

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. **A Fund share is not a bank deposit and it is not insured or guaranteed by the FDIC or any government agency.** The principal risk factors affecting shareholders' investments in the Fund are set forth below.

Market Risk — The risk that the market value of a security may move up and down, sometimes rapidly and unpredictably. Market risk may affect a single issuer, an industry, a sector or the equity or bond market as a whole.

Equity Market Risk — The Fund invests in equity securities and is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund's securities may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response.

Small Capitalization Companies Risk — Small capitalization companies in which the Fund may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, small capitalization companies may have limited product lines, markets and financial resources and may depend upon a relatively small management group. Therefore, small capitalization stocks may be more volatile than those of larger companies. Small capitalization stocks may be traded over-the-counter or listed on an exchange.

Growth Style Risk — The Adviser's growth investment style may increase the risks of investing in the Fund. Because the prices of growth stocks are based largely on the expectation of future earnings, growth stock prices can decline rapidly and significantly when it appears that those expectations will not be met. In addition, a growth investing style may go in and out of favor over time, causing the Fund to sometimes underperform other equity funds that use differing investing styles.

IPO Risk — The market value of shares issued in an IPO may fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about a company's business model, quality of management, earnings growth potential, and other criteria used to evaluate its investment prospects. Accordingly, investments in IPO shares involve greater risks than investments in shares of companies that have traded publicly on an exchange for extended periods of time. Investments in IPO shares may also involve high transaction costs, and are subject to market risk and liquidity risk, which are described elsewhere in this section.

Sector Emphasis Risk — The securities of companies in the same business sector, if comprising a significant portion of the Fund's portfolio, may in some circumstances react negatively to market

conditions, interest rates and economic, regulatory or financial developments and adversely affect the value of the portfolio to a greater extent than if such securities comprised a lesser portion of the Fund's portfolio or the Fund's portfolio was diversified across a greater number of industry sectors.

REITs Risk — REITs are trusts that invest primarily in commercial real estate or real estate-related loans. The Fund's investments in REITs will be subject to the risks associated with the direct ownership of real estate. Risks commonly associated with the direct ownership of real estate include fluctuations in the value of underlying properties, defaults by borrowers or tenants, changes in interest rates and risks related to general or local economic conditions. Some REITs may have limited diversification and may be subject to risks inherent in financing a limited number of properties.

Foreign Investment/Emerging Markets Risk — The risk that non-U.S. securities may be subject to additional risks due to, among other things, political, social and economic developments abroad, currency movements and different legal, regulatory and tax environments. These additional risks may be heightened with respect to emerging market countries because political turmoil and rapid changes in economic conditions are more likely to occur in these countries. Emerging market countries are countries that major international financial institutions, such as the International Monetary Fund or the World Bank, generally consider to be less economically mature than developed nations.

ETFs Risk — The risks of owning shares of an ETF generally reflect the risks of owning the underlying securities the ETF is designed to track, although lack of liquidity in an ETF could result in its value being more volatile than the underlying portfolio securities. When the Fund invests in an ETF, in addition to directly bearing the expenses associated with its own operations, it will bear a pro rata portion of the ETF's expenses.

Liquidity Risk — The risk that certain securities may be difficult or impossible to sell at the time and the price that the seller would like. The seller may have to lower the price, sell other securities instead or forego an investment opportunity, any of which could have a negative effect on Fund management or performance.

Convertible Securities Risk — The value of a convertible security is influenced by changes in interest rates (with investment value declining as interest rates increase and increasing as interest rates decline) and the credit standing of the issuer. The price of a convertible security will also normally vary in some proportion to changes in the price of the underlying common stock because of the conversion or exercise feature.

Depositary Receipts Risk — Depositary receipts, such as ADRs, are certificates evidencing ownership of shares of a foreign issuer that are issued by depositary banks and generally trade on an established market. Depositary receipts are subject to many of the risks associated with investing directly in foreign securities, including, among other things, political, social and economic developments abroad, currency movements and different legal, regulatory and tax environments.

Currency Risk — As a result of the Fund's investments in securities denominated in, and/or receiving revenues in, foreign currencies, the Fund will be subject to currency risk. Currency risk is the risk that foreign currencies will decline in value relative to the U.S. dollar, in which case the dollar value of an investment in the Fund would be adversely affected. Currency exchange rates may fluctuate in response to, among other things, changes in interest rates, intervention (or failure to intervene) by U.S. or foreign governments, central banks or supranational entities, or by the imposition of currency controls or other political developments in the United States or abroad.

Management Risk — The risk that the Fund may not meet its investment objective based on the Adviser’s success or failure to implement investment strategies for the Fund.

Portfolio Turnover Risk — The Fund is subject to portfolio turnover risk because it may buy and sell investments frequently. Such a strategy often involves higher expenses, including brokerage commissions, and may increase the amount of capital gains (in particular, short-term gains) realized by the Fund. Shareholders may be required to pay tax on such capital gains.

Performance Information

The Fund commenced operations on January 16, 2019 and therefore does not have performance history for a full calendar year. Once the Fund has completed a full calendar year of operations, a bar chart and table will be included that will provide some indication of the risks of investing in the Fund by showing the variability of the Fund’s returns and comparing the Fund’s performance to a broad measure of market performance. Of course, the Fund’s past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future.

Current performance information is available on the Fund’s website at www.nicfunds.com or by calling toll-free to 1-833-810-7345.

Investment Adviser

Nicholas Investment Partners, L.P.

Portfolio Managers

Catherine Nicholas, Managing Partner, Chief Investment Officer and Lead Portfolio Manager, has managed the Fund since its inception in 2019.

John Wylie, Partner and Portfolio Manager, has managed the Fund since its inception in 2019.

Purchase and Sale of Fund Shares

You may generally purchase or redeem shares on any day that the New York Stock Exchange (“NYSE”) is open for business.

	Retail Shares	Institutional Shares
Minimum Initial Investment	\$2,000 – Standard Accounts \$1,000 – Traditional and Roth Individual retirement accounts (“IRAs”) \$250 – Accounts with Systematic Investment Plans	\$100,000
Subsequent Minimum Investment	\$250 – All Accounts	\$2,500

Although not limited to the list below, the Adviser may waive or reduce the initial or subsequent minimum investment amounts for Institutional Shares in any of following circumstances:

- Non-discretionary portfolio rebalancing associated with certain asset-allocation programs managed by fee-based investment advisors, certain wrap accounts, and certain retirement plans;
- Retirement, defined benefit and pension plans with plan assets of at least \$5 million;
- Bank or Trust companies investing for their own accounts or acting in a fiduciary or similar capacity;
- Institutional clients of the Adviser;
- Service Providers to the Adviser;
- Trustees and officers of the Trust; and
- Employees of the Adviser and its affiliates, and their immediate families (i.e. parent, child, spouse, domestic partner, sibling, step or adopted relationships, grandparent, grandchild, and Uniform Gift, or Transfer to Minors Act accounts naming qualifying persons).

In addition, the Adviser may permit certain financial intermediaries to aggregate customer accounts to accumulate the requisite \$100,000 initial investment minimum.

Retail Shares of the Fund are currently not available for purchase.

If you own your shares directly, you may redeem your shares by contacting the Fund directly by mail at: Nicholas Partners Small Cap Growth Fund, P.O. Box 219009, Kansas City, MO 64121-9009 (Express Mail Address: Nicholas Partners Small Cap Growth Fund, c/o DST Systems, Inc., 430 West 7th Street, Kansas City, MO 64105) or telephone at 1-833-810-7345.

If you own your shares through an account with a broker or other financial intermediary, contact that broker or financial intermediary to redeem your shares. Your broker or financial intermediary may charge a fee for its services in addition to the fees charged by the Fund.

Tax Information

The Fund intends to make distributions that may be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or IRA, in which case your distribution will be taxed when withdrawn from the tax-deferred account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's web site for more information.

More Information about the Fund’s Investment Objective and Strategies

The investment objective of the Fund is to seek long-term capital appreciation. The investment objective of the Fund is not a fundamental policy and may be changed by the Board without shareholder approval.

The investments and strategies described in this prospectus are those that the Fund uses under normal conditions. During unusual economic or market conditions, or for temporary defensive or liquidity purposes, the Fund may, but is not obligated to, invest up to 100% of its assets in money market instruments and other cash equivalents that would not ordinarily be consistent with its investment objective. If the Fund invests in this manner, it may cause the Fund to forgo greater investment returns for the safety of principal and the Fund may therefore not achieve its investment objective. The Fund will only do so if the Adviser believes that the risk of loss outweighs the opportunity to pursue the Fund’s investment objective.

This prospectus describes the Fund’s principal investment strategies, and the Fund will normally invest in the types of securities and other investments described in this prospectus. In addition to the securities and other investments and strategies described in this prospectus, the Fund also may invest to a lesser extent in other securities, use other strategies and engage in other investment practices that are not part of its principal investment strategies. These investments and strategies, as well as those described in this prospectus, are described in detail in the Fund’s Statement of Additional Information (the “SAI”) (for information on how to obtain a copy of the SAI see the back cover of this prospectus). Of course, there is no guarantee that the Fund will achieve its investment goals.

More Information about Risk

Investing in the Fund involves risk and there is no guarantee that the Fund will achieve its goals. The Adviser’s judgments about the markets, the economy, or companies may not anticipate actual market movements, economic conditions or company performance, and these judgments may affect the return on your investment. In fact, no matter how good of a job the Adviser does, you could lose money on your investment in the Fund, just as you could with similar investments.

The value of your investment in the Fund is based on the value of the securities the Fund holds. These prices change daily due to economic and other events that affect particular companies and other issuers. These price movements, sometimes called volatility, may be greater or lesser depending on the types of securities the Fund owns and the markets in which they trade. The effect on the Fund of a change in the value of a single security will depend on how widely the Fund diversifies its holdings.

Market Risk — Market risk is the risk that the market value of a security may move up and down, sometimes rapidly and unpredictably. Market risk may affect a single issuer, an industry, a sector or the market as a whole. Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issues in other countries or regions.

Equity Market Risk — The Fund invests in equity securities and is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund’s securities may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. In the case of foreign stocks, these fluctuations will reflect international economic and political events, as well as changes in currency valuations relative to the U.S. dollar. These factors contribute to price volatility.

Small Capitalization Companies Risk — The risk that small capitalization companies in which the Fund may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, small capitalization companies may have limited product lines, markets and financial resources and may depend upon a relatively small management group. Therefore, small capitalization stocks may be more volatile than those of larger companies. Small capitalization stocks may be traded over-the-counter or listed on an exchange.

Growth Style Risk — The Adviser’s growth investment style may increase the risks of investing in the Fund. Because the prices of growth stocks are based largely on the expectation of future earnings, growth stock prices can decline rapidly and significantly when it appears that those expectations will not be met. In addition, a growth investing style may go in and out of favor over time, causing the Fund to sometimes underperform other equity funds that use differing investing styles.

IPO Risk — The Fund may invest in IPOs. An IPO is a company’s first offering of stock to the public. IPO risk is the risk that the market value of IPO shares will fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about a company’s business model, quality of management, earnings growth potential and other criteria used to evaluate its investment prospects. Accordingly, investments in IPO shares involve greater risks than investments in shares of companies that have traded publicly on an exchange for extended periods of time. Investments in IPO shares may also involve high transaction costs, and are subject to market risk and liquidity risk, which are described elsewhere in this section.

When the Fund’s asset base is small, a significant portion of the Fund’s performance could be attributable to investments in IPOs, because such investments would have a magnified impact on the Fund. As the Fund’s assets grow, the effect of the Fund’s investments in IPOs on the Fund’s performance probably will decline, which could reduce the Fund’s performance. Because of the price volatility of IPO shares, the Fund may choose to hold IPO shares for a very short period of time. This may increase the turnover of the Fund’s portfolio and may lead to increased expenses to the Fund, such as commissions and transaction costs. By selling IPO shares, the Fund may realize taxable gains it will subsequently distribute to shareholders. In addition, the market for IPO shares can be speculative and/or inactive for extended periods of time. There is no assurance that the Fund will be able to obtain allocable portions of IPO shares. The limited number of shares available for trading in some IPOs may make it more difficult for the Fund to buy or sell significant amounts of shares without an unfavorable impact on prevailing prices. Investors in IPO shares can be affected by substantial dilution in the value of their shares, by sales of additional shares and by concentration of control in existing management and principal shareholders.

Sector Emphasis Risk — The securities of companies in the same business sector, if comprising a significant portion of the Fund’s portfolio, may in some circumstances react negatively to market

conditions, interest rates and economic, regulatory or financial developments and adversely affect the value of the portfolio to a greater extent than if such securities comprised a lesser portion of the Fund's portfolio or the Fund's portfolio was diversified across a greater number of industry sectors. Some industry sectors have particular risks that may not affect other sectors.

REITs Risk — REITs are trusts that invest primarily in commercial real estate or real estate-related loans. By investing in REITs indirectly through the Fund, shareholders will not only bear the proportionate share of the expenses of the Fund, but will also, indirectly, bear similar expenses of underlying REITs. The Fund may be subject to certain risks associated with the direct investments of the REITs. REITs may be affected by changes in the value of their underlying properties and by defaults by borrowers or tenants. Some REITs may have limited diversification and may be subject to risks inherent in financing a limited number of properties. REITs depend generally on their ability to generate cash flow to make distributions to shareholders or unitholders, and may be subject to defaults by borrowers and to self-liquidations. In addition, a REIT may be affected by its failure to qualify for tax-free pass-through of income under the Internal Revenue Code of 1986, as amended, or its failure to maintain exemption from registration under the Investment Company Act of 1940, as amended (the "1940 Act").

Foreign Investment/Emerging Markets Risk — The Fund may invest in foreign issuers, including issuers located in emerging market countries. Investing in issuers located in foreign countries poses distinct risks because political and economic events unique to a country or region will affect those markets and their issuers. These events will not necessarily affect the U.S. economy or similar issuers located in the United States. In addition, investments in foreign countries are generally denominated in a foreign currency. As a result, changes in the value of those currencies compared to the U.S. dollar may affect (positively or negatively) the value of the Fund's investments. These currency movements may happen separately from and in response to events that do not otherwise affect the value of the security in the issuer's home country.

Emerging market countries may be more likely to experience political turmoil or rapid changes in market or economic conditions than more developed countries. Emerging market countries often have less uniformity in accounting and reporting requirements and unreliable securities valuation. It is sometimes difficult to obtain and enforce court judgments in such countries and there is often a greater potential for nationalization and/or expropriation of assets by the government of an emerging market country. In addition, the financial stability of issuers (including governments) in emerging market countries may be more precarious than in other countries. As a result, there will tend to be an increased risk of price volatility associated with the Fund's investments in emerging market countries, which may be magnified by currency fluctuations relative to the U.S. dollar.

ETFs Risk — The risks of owning interests of an ETF generally reflect the same risks as owning the underlying securities or other instruments that the ETF is designed to track. The shares of certain ETFs may trade at a premium or discount to their intrinsic value (i.e., the market value may differ from the net asset value ("NAV") of an ETF's shares). For example, supply and demand for shares of an ETF or market disruptions may cause the market price of the ETF to deviate from the value of the ETF's investments, which may be emphasized in less liquid markets. By investing in an ETF, the Fund indirectly bears the proportionate share of any fees and expenses of the ETF in addition to the fees and expenses that the Fund and its shareholders directly bear in connection with the Fund's operations.

ETFs are investment companies whose shares are bought and sold on a securities exchange. Most ETFs are passively-managed, meaning they invest in a portfolio of securities designed to track a particular market segment or index. ETFs, like mutual funds, have expenses associated with their operation, including advisory fees. Such ETF expenses may make owning shares of the ETF more costly than owning the underlying securities directly. The risks of owning shares of a passively-managed ETF generally reflect the risks of owning the underlying securities the ETF is designed to track, although lack of liquidity in an ETF could result in its value being more volatile than the underlying portfolio of securities.

Liquidity Risk — Liquidity risk exists when particular investments are difficult to purchase or sell. The market for certain investments may become illiquid due to specific adverse changes in the condition of a particular issuer or under adverse market or economic conditions independent of the issuer. The Fund's investments in illiquid securities may reduce the returns of the Fund because it may be unable to sell the illiquid securities at an advantageous time or price. Further, transactions in illiquid securities may entail transaction costs that are higher than those for transactions in liquid securities.

Convertible Securities Risk — Convertible securities are bonds, debentures, notes, preferred stock or other securities that may be converted into or exercised for a prescribed amount of common stock at a specified time and price. Convertible securities provide an opportunity for equity participation, with the potential for a higher dividend or interest yield and lower price volatility compared to common stock. Convertible securities typically pay a lower interest rate than nonconvertible bonds of the same quality and maturity because of the conversion feature. The value of a convertible security is influenced by changes in interest rates, with investment value typically declining as interest rates increase and increasing as interest rates decline, and the credit standing of the issuer. The price of a convertible security will also normally vary in some proportion to changes in the price of the underlying common stock because of the conversion or exercise feature. A convertible security may also be called for redemption or conversion by the issuer after a particular date and under certain circumstances (including a specified price) established upon issue. If a convertible security held by the Fund is called for redemption or conversion, the Fund could be required to tender it for redemption, convert it into the underlying common stock, or sell it to a third party at a time that may be unfavorable to the Fund.

Depository Receipts Risk — Depository receipts are alternatives to directly purchasing the underlying foreign securities in their national markets and currencies. However, depository receipts, including ADRs, are subject to many of the risks associated with investing directly in foreign securities, which are further described elsewhere in this section.

Currency Risk — Fluctuations in exchange rates between the U.S. dollar and foreign currencies, or between various foreign currencies, may negatively affect the Fund's performance. Currency exchange rates can be volatile and can be affected by, among other factors, the actions or inactions by U.S. or foreign governments, central banks or supranational entities, the imposition of currency controls, speculation, or general economic or political developments in the U.S. or a foreign country.

Management Risk — Management risk describes the Fund's ability to meet its investment objective based on the Adviser's success or failure to implement investment strategies for the Fund. The value of an investment in the Fund is subject to the effectiveness of the Adviser's research, analysis, and asset allocation among portfolio securities. If the Adviser's investment strategies do not produce the expected results, an investment in the Fund could be diminished or even lost.

Portfolio Turnover Risk — Due to its investment strategy, the Fund may buy and sell securities and other instruments frequently. This may result in higher transaction costs and additional capital gains tax liabilities, which may affect the Fund’s performance.

Information about Portfolio Holdings

A description of the Fund’s policies and procedures with respect to the circumstances under which the Fund discloses its portfolio holdings is available in the SAI. Within 15 days of the end of each of March, June, September and December, and within 30 days of the end of each other month, the Fund will post both its top ten and complete portfolio holdings on the internet at www.nicfunds.com. This information will generally remain available until it is replaced by new portfolio holdings information as described above. The Adviser may exclude any portion of the Fund’s portfolio holdings from such publication when deemed in the best interest of the Fund.

Management of the Fund

The Adviser

Nicholas Investment Partners, L.P., a Delaware limited partnership founded in 2006, serves as the investment adviser to the Fund. The Adviser’s principal place of business is located at 6451 El Sicomoro Street, Rancho Santa Fe, California 92067. As of September 30, 2019, the Adviser had approximately \$1,210 million in assets under management and approximately \$443 million in US small-cap growth assets, with the Fund accounting for \$51 million of the US small-cap growth assets.

The Adviser makes investment decisions for the Fund and continuously reviews, supervises and administers the Fund’s investment program. The Board supervises the Adviser and establishes policies that the Adviser must follow in its management activities.

For its services to the Fund, the Adviser is entitled to a fee, which is calculated daily and paid monthly, at an annual rate of 0.75% of the average daily net assets of the Fund.

In addition to advisory fees, the Fund incurs other expenses such as custodian, transfer agency, administrative and other customary Fund expenses.

The Adviser has contractually agreed to waive fees and/or reimburse expenses to the extent necessary to keep total annual Fund operating expenses (excluding interest, taxes, brokerage commissions, 12b-1 fees, acquired fund fees and expenses and non-routine expenses (collectively, “excluded expenses”)) from exceeding 0.99% of the average daily net assets of each of the Fund’s share classes until January 31, 2021 (the “expense cap”). This agreement may be terminated: (i) by the Board, for any reason at any time; or (ii) by the Adviser, upon ninety (90) days’ prior written notice to the Trust, effective as of the close of business on January 31, 2021. In addition, the Adviser may receive from the Fund the difference between the total annual Fund operating expenses (not including excluded expenses) and the expense cap to recoup all or a portion of its prior fee waivers or expense reimbursements made during the rolling three-year period preceding the recoupment if at any point total annual Fund operating expenses (not including excluded expenses) are below the expense cap (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment.

For the fiscal period from January 16, 2019 (commencement of Fund operations) to September 30, 2019, the Fund paid 0.19% of its average daily net assets (after fee waivers) in advisory fees to the Adviser.

A discussion regarding the basis for the Board's approval of the Fund's investment advisory agreement is available in the Fund's Semi-Annual Report to Shareholders dated March 31, 2019, which covers the period from the Fund's inception to March 31, 2019.

Portfolio Managers

Catherine Nicholas, Managing Partner and Chief Investment Officer, serves as Lead Portfolio Manager of the Fund. Prior to co-founding the Adviser in 2006, Ms. Nicholas served as the Global Chief Investment Officer of Nicholas-Applegate Capital Management ("NACM") from 1997 until the firm's sale to Allianz in 2001. After NACM's sale, Ms. Nicholas served on the NACM Executive Committee and the Allianz Dresdner Asset Management US Equity Committee for two years. Ms. Nicholas joined NACM in 1987 as an analyst and was promoted to lead Portfolio Manager of US Small Cap and Micro Cap Growth, which she managed for ten years. Ms. Nicholas concurrently served for six years as head of US Equity and helped develop NACM's global investment platform in developed international and emerging markets. Prior to joining NACM, Ms. Nicholas was Vice President at Professional Asset Securities and served as a research analyst at Pacific Century Advisors. Ms. Nicholas earned a B.S. in Business Administration, *cum laude*, and an M.B.A. in Finance from the University of Southern California. Ms. Nicholas has over 30 years of investment experience.

John Wylie, Partner, serves as Portfolio Manager of the Fund. Prior to joining the Adviser in 2007, Mr. Wylie co-founded CapitalWorks Investment Partners in 1998 where he served as Co-Chief Investment Officer and lead portfolio manager for Convertible Arbitrage and Micro Cap. Prior to 1998, Mr. Wylie was President of Nicholas-Applegate Securities Mutual Funds and Chief Investment Officer of their Investor Services Group. Previously, he was the lead Portfolio Manager of the Growth and Income team at NACM. Before joining NACM in 1987, he worked with Metropolitan Life Insurance Company for six years. Mr. Wylie earned a B.A. in American Studies, *cum laude*, from Amherst College. Mr. Wylie has over 30 years of investment experience.

The SAI provides additional information about the portfolio managers' compensation, other accounts managed, and ownership of Fund shares.

Related Performance Data of the Adviser

The following tables give the related performance of fully discretionary separate accounts (each, an "Account"), referred to as a "Composite," managed by the Adviser that have investment objectives, policies and strategies substantially similar to those of the Fund. **The data does not represent the performance of the Fund.** Performance is historical and does not represent the future performance of the Fund or of the Adviser.

The manner in which the performance was calculated for the Composite differs from that of registered mutual funds such as the Fund. If the performance was calculated in accordance with U.S. Securities and Exchange Commission ("SEC") standardized performance methodology, the performance results may have been different. The Adviser has calculated the Composite performance

consistent with Global Investment Performance Standards (“GIPS®”) policies for composite construction. The Adviser’s policies on calculating performance and preparing GIPS® compliant performance presentations are available upon request.

The Composite returns presented were calculated on a total return basis and include all dividends and interest, accrued income, and realized and unrealized gains and losses. Investment transactions are accounted for on a trade date basis. “Net of fees” returns reflect the deduction of foreign withholding taxes and all fees and expenses, including investment management fees, brokerage commissions and execution costs, paid by the Accounts included in the Composite, without taking into account federal or state income taxes, while “gross of fees” returns do not reflect the deduction of investment management fees. All fees and expenses related to the Adviser’s management of the Accounts were included in the calculations. “Net of fees” returns are calculated using an investment management fee of 1.00%, which is the highest stated investment management fee for the Composite strategy during the Composite performance period.

Because of variation in fee levels, the Composite returns may not be reflective of performance in any one particular Account. Therefore, the performance information shown below is not necessarily representative of the performance information that typically would be shown for a registered mutual fund.

The Fund’s fees and expenses are generally expected to be higher than those of the Composite. If the Fund’s fees and expenses had been imposed on the Composite, the performance shown below would have been different. The Accounts are also not subject to the diversification requirements, specific tax restrictions, and investment limitations imposed on the Fund by the federal securities and tax laws. Consequently, the performance results for the Composite could have been adversely affected if the Accounts were subject to the same federal securities and tax laws as the Fund.

The investment results for the Composite presented below are not intended to predict or suggest the future returns of the Fund. **The performance data shown below should not be considered a substitute for the Fund’s own performance information.** Investors should be aware that the use of a methodology different than that used below to calculate performance could result in different performance data.

THE FOLLOWING DATA DOES NOT REPRESENT THE PERFORMANCE OF THE FUND.

Performance Information for the Adviser’s Substantially Similar Strategy Composite¹

Calendar Year Total Pre-Tax Returns			
Year	Total Pre-Tax Return (Net of Fees)	Total Pre-Tax Return (Gross of Fees)	Russell 2000 Growth Index²

Since Inception ³	8.10%	9.19%	9.19%

¹ The Composite performance information is calculated in and expressed in United States dollars. Accounts are included in the Composite from the first full month of management and removed after the last full month of management. Effective June 1, 2012, an Account with a significant cash flow that temporarily prevents the Adviser from implementing the Composite strategy for the Account (defined as a single cash flow exceeding 25% of the Account's assets at the beginning of the month) is removed from the Composite for the month of the cash flow.

² The Russell 2000 Growth Index is an unmanaged capitalization-weighted measure of 2,000 of the smallest capitalized US companies with a greater-than-average growth orientation and whose common stocks trade on the NYSE, NYSE Alternext US (formerly known as "AMEX") and Nasdaq.

³ The inception date of the Composite is July 1, 2007.

Purchasing and Selling Fund Shares

This section tells you how to purchase and sell (sometimes called "redeem") Retail Shares and Institutional Shares of the Fund.

For information regarding the federal income tax consequences of transactions in shares of the Fund, including information about cost basis reporting, see "Taxes."

How to Choose a Share Class

The Fund offers two classes of shares to investors, Retail Shares and Institutional Shares. Each share class has its own investment minimums, cost structure and other features. The following summarizes the primary features of Retail Shares and Institutional Shares. Contact your financial intermediary or the Fund for more information about the Fund’s share classes and how to choose between them.

Retail Shares of the Fund are currently not available for purchase.

	Retail Shares	Institutional Shares
Fees	12b-1 fee of 0.25% Shareholder servicing fee of up to 0.10%	Shareholder servicing fee of up to 0.10%
Minimum Initial Investment	\$2,000 – Standard Accounts \$1,000 – Traditional and Roth Individual retirement accounts (“IRAs”) \$250 – Accounts with Systematic Investment Plans	\$100,000
Subsequent Minimum Investment	\$250 – All Accounts	\$2,500

Retail Shares and Institutional Shares are offered to investors who purchase shares directly from the Fund or through certain financial intermediaries such as financial planners, investment advisors, broker-dealers or other financial institutions. An investor may be eligible to purchase more than one share class. However, if you purchase shares through a financial intermediary, you may only purchase that class of shares which your financial intermediary sells or services. Your financial intermediary can tell you which classes of shares of the Fund are available through the intermediary.

The Fund reserves the right to change the criteria for eligible investors and accept investments of smaller amounts in its sole discretion.

How to Purchase Fund Shares

To purchase shares directly from the Fund through its transfer agent, complete and send in the application. If you need an application or have questions, please call 1-833-810-7345.

All investments must be made by check, wire or Automated Clearing House (“ACH”). All checks must be made payable in U.S. dollars and drawn on U.S. financial institutions. The Fund does not accept purchases made by third-party checks, credit cards, credit card checks, cash, traveler’s checks, money orders or cashier’s checks.

The Fund reserves the right to reject any specific purchase order, for any reason. The Fund is not intended for short-term trading by shareholders in response to short-term market fluctuations. For more information about the Fund’s policy on short-term trading, see “Excessive Trading Policies and Procedures.”

The Fund does not generally accept investments by non-U.S. persons. Non-U.S. persons may be permitted to invest in the Fund subject to the satisfaction of enhanced due diligence. Please contact the Fund for more information.

By Mail

You can open an account with the Fund by sending a check and your account application to the address below. You can add to an existing account by sending the Fund a check and, if possible, the “Invest by Mail” stub that accompanies your confirmation statement. Be sure your check identifies clearly your name, your account number, the Fund name and the share class.

Regular Mail Address

Nicholas Partners Small Cap Growth Fund
P.O. Box 219009
Kansas City, MO 64121-9009

Express Mail Address

Nicholas Partners Small Cap Growth Fund
c/o DST Systems, Inc.
430 West 7th Street
Kansas City, MO 64105

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services of purchase orders does not constitute receipt by the Fund’s transfer agent. The share price used to fill the purchase order is the next price calculated by the Fund after the Fund’s transfer agent receives the order in proper form at the P.O. Box provided for regular mail delivery or the office address provided for express mail delivery.

By Wire

To open an account by wire, call 1-833-810-7345 for details. To add to an existing account by wire, wire your money using the wiring instructions set forth below (be sure to include the Fund name, the share class, and your account number).

Wiring Instructions

UMB Bank, N.A.
ABA # 101000695
Nicholas Partners Small Cap Growth Fund
DDA # 9872013085

Ref: Fund name/share class/account number/account name

Purchases In-Kind

Subject to the approval of the Fund, an investor may purchase shares of the Fund with liquid securities and other assets that are eligible for purchase by the Fund (consistent with the Fund’s

investment policies and restrictions) and that have a value that is readily ascertainable in accordance with the Fund’s valuation policies. These transactions will be effected only if the Adviser deems the security to be an appropriate investment for the Fund. Assets purchased by the Fund in such transactions will be valued in accordance with procedures adopted by the Fund. The Fund reserves the right to amend or terminate this practice at any time.

Minimum Purchases

	Retail Shares	Institutional Shares
Minimum Initial Investment	\$2,000 – Standard Accounts \$1,000 – Traditional and Roth Individual retirement accounts (“IRAs”) \$250 – Accounts with Systematic Investment Plans	\$100,000
Subsequent Minimum Investment	\$250 – All Accounts	\$2,500

Although not limited to the list below, the Adviser may waive or reduce the initial or subsequent minimum investment amounts for Institutional Shares in any of following circumstances:

- Non-discretionary portfolio rebalancing associated with certain asset-allocation programs managed by fee- based investment advisors, certain wrap accounts, and certain retirement plans;
- Retirement, defined benefit and pension plans with plan assets of at least \$5 million;
- Bank or Trust companies investing for their own accounts or acting in a fiduciary or similar capacity;
- Institutional clients of the Adviser;
- Service Providers to the Adviser;
- Trustees and officers of the Trust; and
- Employees of the Adviser and its affiliates, and their immediate families (i.e. parent, child, spouse, domestic partner, sibling, step or adopted relationships, grandparent, grandchild, and Uniform Gift, or Transfer to Minors Act accounts naming qualifying persons).

In addition, the Adviser may permit certain financial intermediaries to aggregate customer accounts to accumulate the requisite \$100,000 initial investment minimum.

By Systematic Investment Plan (via ACH) (Retail Shares Only)

You may not open an account via ACH. However, once you have established a direct account with the Fund, you can set up an automatic investment plan via ACH by mailing a completed application to the Fund. These purchases can be made monthly, quarterly, semi-annually or annually in amounts of at least \$250 for Retail Shares. To cancel or change a plan, contact the Fund by mail at: Nicholas Partners Small Cap Growth Fund, P.O. Box 219009, Kansas City, MO 64121-9009 (Express Mail Address: Nicholas Partners Small Cap Growth Fund, c/o DST Systems, Inc., 430 West 7th Street, Kansas City, MO 64105). Please allow up to 15 days to create the plan and 3 days to cancel or change it.

Fund Codes

The Fund’s reference information, which is listed below, will be helpful to you when you contact the Fund to purchase shares, check daily NAV, or obtain additional information.

Fund Name	Share Class	Ticker Symbol	CUSIP	Fund Code
Nicholas Partners Small Cap Growth Fund	Retail Shares	NPSYX	00774Q 734	2779
	Institutional Shares	NPSGX	00774Q 726	2778

General Information

You may purchase shares on any day that the NYSE is open for business (a “Business Day”). Shares cannot be purchased by Federal Reserve wire on days that either the NYSE or the Federal Reserve is closed.

The Fund’s price per share will be the NAV per share next determined after the Fund or an authorized institution (defined below) receives your purchase order in proper form. “Proper form” means that the Fund was provided with a complete and signed account application, including the investor’s social security number or tax identification number, and other identification required by law or regulation, as well as sufficient purchase proceeds.

The Fund calculates its NAV once each Business Day as of the close of normal trading on the NYSE (normally, 4:00 p.m., Eastern Time). To receive the current Business Day’s NAV, the Fund or an authorized institution must receive your purchase order in proper form before the close of normal trading on the NYSE. If the NYSE closes early, as in the case of scheduled half-day trading or unscheduled suspensions of trading, the Fund reserves the right to calculate NAV as of the earlier closing time. The Fund will not accept orders that request a particular day or price for the transaction or any other special conditions. Shares will only be priced on Business Days. Since securities that are traded on foreign exchanges may trade on days that are not Business Days, the value of the Fund’s assets may change on days when you are unable to purchase or redeem shares.

Buying or Selling Shares through a Financial Intermediary

In addition to being able to buy and sell Fund shares directly from the Fund through its transfer agent, you may also buy or sell shares of the Fund through accounts with financial intermediaries, such as brokers and other institutions that are authorized to place trades in Fund shares for their customers. When you purchase or sell Fund shares through a financial intermediary (rather than directly from the Fund), you may have to transmit your purchase and sale requests to the financial intermediary at an earlier time for your transaction to become effective that day. This allows the financial intermediary time to process your requests and transmit them to the Fund prior to the time the Fund calculates its NAV that day. Your financial intermediary is responsible for transmitting all purchase and redemption requests, investment information, documentation and money to the Fund on time. If your financial intermediary fails to do so, it may be responsible for any resulting fees or losses. Unless your financial intermediary is an authorized institution, orders transmitted by the financial intermediary and received by the Fund after the time NAV is calculated for a particular day will receive the following day’s NAV.

Certain financial intermediaries, including certain broker-dealers and shareholder organizations, are authorized to act as agent on behalf of the Fund with respect to the receipt of purchase and redemption orders for Fund shares (“authorized institutions”). Authorized institutions are also authorized to designate other intermediaries to receive purchase and redemption orders on the Fund’s behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized institution or, if applicable, an authorized institution’s designee, receives the order. Orders will be priced at the Fund’s NAV next computed after they are received by an authorized institution or an authorized institution’s designee. To determine whether your financial intermediary is an authorized institution or an authorized institution’s designee such that it may act as agent on behalf of the Fund with respect to purchase and redemption orders for Fund shares, you should contact your financial intermediary directly.

If you deal directly with a financial intermediary, you will have to follow its procedures for transacting with the Fund. Your financial intermediary may charge a fee for your purchase and/or redemption transactions. For more information about how to purchase or sell Fund shares through a financial intermediary, you should contact your financial intermediary directly.

How the Fund Calculates NAV

The NAV of a class of the Fund’s shares is determined by dividing the total value of the Fund’s portfolio investments and other assets attributable to the class, less any liabilities attributable to the class, by the total number of shares outstanding of the class.

In calculating NAV, the Fund generally values its investment portfolio at market price. If market prices are not readily available or the Fund reasonably believes that they are unreliable, such as in the case of a security value that has been materially affected by events occurring after the relevant market closes, the Fund is required to price those securities at fair value as determined in good faith using methods approved by the Board. Pursuant to the policies adopted by, and under the ultimate supervision of, the Board, these methods are implemented through the Trust’s Fair Value Pricing Committee, members of which are appointed by the Board. The Fund’s determination of a security’s fair value price often involves the consideration of a number of subjective factors, and is therefore subject to the unavoidable risk that the value that the Fund assigns to a security may be higher or lower than the security’s value would be if a reliable market quotation for the security was readily available. The respective prospectuses for the open-end investment companies in which the Fund invests explain the circumstances in which those investment companies will use fair value pricing and the effect of fair value pricing.

Redeemable securities issued by open-end investment companies are valued at the investment company’s applicable NAV.

How to Sell Your Fund Shares

If you own your shares directly, you may sell your shares on any Business Day by contacting the Fund directly by mail or telephone at 1-833-810-7345.

If you own your shares through an account with a broker or other institution, contact that broker or institution to sell your shares. Your broker or institution may charge a fee for its services in addition to the fees charged by the Fund.

If you would like to have your redemption proceeds, including proceeds generated as a result of closing your account, sent to a third party or an address other than your own, please notify the Fund in writing.

Certain redemption requests will require a signature guarantee by an eligible guarantor institution. Eligible guarantors include commercial banks, savings and loans, savings banks, trust companies, credit unions, member firms of a national stock exchange, or any other member or participant of an approved signature guarantor program. For example, signature guarantees may be required if your address of record has changed in the last 30 days, if you want the proceeds sent to a bank other than the bank of record on your account, or if you ask that the proceeds be sent to a different person or address. Please note that a notary public is not an acceptable provider of a signature guarantee and that the Fund must be provided with the original guarantee. Signature guarantees are for the protection of Fund shareholders. Before granting a redemption request, the Fund may require a shareholder to furnish additional legal documents to ensure proper authorization.

Accounts held by a corporation, trust, fiduciary or partnership, may require additional documentation along with a signature guaranteed letter of instruction. The Fund participates in the Paperless Legal Program (the “Program”), which eliminates the need for accompanying paper documentation on legal securities transfers. Requests received with a Medallion Signature Guarantee will be reviewed for the proper criteria to meet the guidelines of the Program and may not require additional documentation. Please contact Shareholder Services at 1-833-810-7345 for more information.

The sale price of each share will be the NAV next determined after the Fund (or an authorized institution) receives your request in proper form.

By Mail

To redeem shares by mail, please send a letter to the Fund signed by all registered parties on the account specifying:

- The Fund name;
- The share class;
- The account number;
- The dollar amount or number of shares you wish to redeem;
- The account name(s); and
- The address to which redemption (sale) proceeds should be sent.

All registered shareholders must sign the letter in the exact name(s) and must designate any special capacity in which they are registered.

Regular Mail Address

Nicholas Partners Small Cap Growth Fund
P.O. Box 219009

Kansas City, MO 64121-9009

Express Mail Address

Nicholas Partners Small Cap Growth Fund
c/o DST Systems, Inc.
430 West 7th Street
Kansas City, MO 64105

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services of sell orders does not constitute receipt by the Fund's transfer agent. The share price used to fill the sell order is the next price calculated by the Fund after the Fund's transfer agent receives the order in proper form at the P.O. Box provided for regular mail delivery or the office address provided for express mail delivery.

By Telephone

To redeem shares by telephone, you must first establish the telephone redemption privilege (and, if desired, the wire and/or ACH redemption privilege) by completing the appropriate sections of the account application. Call 1-833-810-7345 to redeem your shares. Based on your instructions, the Fund will mail your proceeds to you, or send them to your bank via wire or ACH.

By Systematic Withdrawal Plan (via ACH) (Retail Shares Only)

If you have a direct account with the Fund, you may transfer as little as \$100 per month for Retail Shares from your account to another financial institution through a Systematic Withdrawal Plan (via ACH). The minimum balance requirements may be modified by the Fund in its sole discretion. To participate in this service, you must complete the appropriate sections of the account application and mail it to the Fund.

Receiving Your Money

Normally, the Fund will send your sale proceeds within one Business Day after it receives your redemption request. The Fund, however, may take up to seven days to pay redemption proceeds. Your proceeds can be wired to your bank account (may be subject to a \$10 fee), sent to you by check or sent via ACH to your bank account if you have established banking instructions with the Fund. **If you are selling shares that were recently purchased by check or through ACH, redemption proceeds may not be available until your check has cleared or the ACH transaction has been completed (which may take up to 15 days from your date of purchase).**

The Fund typically expects to sell portfolio assets and/or hold cash or cash equivalents to meet redemption requests. On a less regular basis, the Fund may also meet redemption requests by using short-term borrowings from its custodian and/or redeeming shares in-kind (as described below). These methods may be used during both normal and stressed market conditions.

Redemptions In-Kind

The Fund generally pays sale (redemption) proceeds in cash. However, under unusual conditions that make the payment of cash unwise and for the protection of the Fund's remaining shareholders, the

Fund might pay all or part of your redemption proceeds in securities with a market value equal to the redemption price (redemption in-kind). It is highly unlikely that your shares would ever be redeemed in-kind, but if they were, you would have to pay transaction costs to sell the securities distributed to you, as well as taxes on any capital gains from the sale as with any redemption. In addition, you would continue to be subject to the risks of any market fluctuation in the value of the securities you receive in-kind until they are sold.

Involuntary Redemptions of Your Shares

If your account balance drops below \$500 for Retail Shares or \$2,500 for Institutional Shares because of redemptions, you may be required to sell your shares. The Fund generally will provide you at least 30 days' written notice to give you time to add to your account and avoid the involuntary redemption of your shares. The Fund reserves the right to waive the minimum account value requirement in its sole discretion. If your Fund shares are redeemed for this reason within 30 calendar days of their purchase, the redemption fee will not be applied.

Suspension of Your Right to Sell Your Shares

The Fund may suspend your right to sell your shares or delay payment of redemption proceeds for more than seven days during times when the NYSE is closed, other than during customary weekends or holidays, or as otherwise permitted by the SEC. More information about this is in the SAI.

Telephone Transactions

Purchasing and selling Fund shares over the telephone is extremely convenient, but not without risk. Although the Fund has certain safeguards and procedures to confirm the identity of callers and the authenticity of instructions, the Fund is not responsible for any losses or costs incurred by following telephone instructions it reasonably believes to be genuine. If you or your financial institution transact with the Fund over the telephone, you will generally bear the risk of any loss.

Share Class Conversions

At no charge, you or your financial intermediary may convert one class of shares of the Fund directly to another class of shares of the Fund, subject to the eligibility requirements and the fees and expenses of the share class of the Fund you convert into. A conversion between share classes of the Fund is not a taxable event.

You may only convert shares between accounts with identical registrations (i.e., the same names and addresses). If you purchase shares through a financial intermediary, you may only convert into a share class which your financial intermediary sells or services. Your financial intermediary can tell you which share classes are available through the intermediary.

Payments to Financial Intermediaries

The Fund and/or the Adviser may compensate financial intermediaries for providing a variety of services to the Fund and/or its shareholders. Financial intermediaries include affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Fund, its service

providers or their respective affiliates. This section briefly describes how financial intermediaries may be paid for providing these services. For more information, please see “Payments to Financial Intermediaries” in the SAI.

Distribution Plan

The Fund has adopted a distribution plan under Rule 12b-1 of the 1940 Act for Retail Shares that allows the Fund to pay distribution and/or service fees for the sale and distribution of Fund shares, and for services provided to shareholders. Because these fees are paid out of the Fund’s assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. The maximum annual Rule 12b-1 fee for Retail Shares of the Fund is 0.25%.

Shareholder Servicing Plan

The Fund has adopted a shareholder servicing plan that provides that the Fund may pay financial intermediaries for shareholder services in an annual amount not to exceed 0.10% based on the average daily net assets of the Fund’s Retail Shares and Institutional Shares. The services for which financial intermediaries are compensated may include record-keeping, transaction processing for shareholders’ accounts and other shareholder services.

Payments by the Adviser

From time to time, the Adviser and/or its affiliates, in their discretion, may make payments to certain affiliated or unaffiliated financial intermediaries to compensate them for the costs associated with distribution, marketing, administration and shareholder servicing support for the Fund. These payments are sometimes characterized as “revenue sharing” payments and are made out of the Adviser’s and/or its affiliates’ own legitimate profits or other resources, and may be in addition to any payments made to financial intermediaries by the Fund. A financial intermediary may provide these services with respect to Fund shares sold or held through programs such as retirement plans, qualified tuition programs, fund supermarkets, fee-based advisory or wrap fee programs, bank trust programs, and insurance (e.g., individual or group annuity) programs. In addition, financial intermediaries may receive payments for making shares of the Fund available to their customers or registered representatives, including providing the Fund with “shelf space,” placing it on a preferred or recommended fund list, or promoting the Fund in certain sales programs that are sponsored by financial intermediaries. To the extent permitted by SEC and Financial Industry Regulatory Authority (“FINRA”) rules and other applicable laws and regulations, the Adviser and/or its affiliates may pay or allow other promotional incentives or payments to financial intermediaries.

The level of payments made by the Adviser and/or its affiliates to individual financial intermediaries varies in any given year and may be negotiated on the basis of sales of Fund shares, the amount of Fund assets serviced by the financial intermediary or the quality of the financial intermediary’s relationship with the Adviser and/or its affiliates. These payments may be more or less than the payments received by the financial intermediaries from other mutual funds and may influence a financial intermediary to favor the sales of certain funds or share classes over others. In certain instances, the payments could be significant and may cause a conflict of interest for your financial intermediary. Any such payments will not change the NAV or price of the Fund’s shares. Please contact your financial intermediary for information about any payments it may receive in connection with the sale of Fund shares or the provision of services to Fund shareholders.

In addition to these payments, your financial intermediary may charge you account fees, commissions or-transaction fees for buying or redeeming shares of the Fund, or other fees for servicing your account. Your financial intermediary should provide a schedule of its fees and services to you upon request.

Other Policies

Excessive Trading Policies and Procedures

The Fund is intended for long-term investment purposes only and discourages shareholders from engaging in “market timing” or other types of excessive short-term trading. This frequent trading into and out of the Fund may present risks to the Fund’s long-term shareholders and could adversely affect shareholder returns. The risks posed by frequent trading include interfering with the efficient implementation of the Fund’s investment strategies, triggering the recognition of taxable gains and losses on the sale of Fund investments, requiring the Fund to maintain higher cash balances to meet redemption requests, and experiencing increased transaction costs.

Because the Fund may invest in small-cap securities, which often trade in lower volumes and may be less liquid, the Fund may be more susceptible to the risks posed by frequent trading because frequent transactions in the Fund’s shares may have a greater impact on the market prices of these types of securities.

The Fund’s service providers will take steps reasonably designed to detect and deter frequent trading by shareholders pursuant to the Fund’s policies and procedures described in this prospectus and approved by the Board. For purposes of applying these policies, the Fund’s service providers may consider the trading history of accounts under common ownership or control. The Fund’s policies and procedures include:

- A redemption fee of 2.00% of the value of shares sold will be imposed on Fund shares redeemed within 30 days or less after their date of purchase (subject to certain exceptions as discussed below in “Redemption Fee”).
- The Fund reserves the right to reject any purchase request by any investor or group of investors for any reason without prior notice, including, in particular, if the Fund or the Adviser reasonably believes that the trading activity would be harmful or disruptive to the Fund.

The Fund and/or its service providers seek to apply these policies to the best of their abilities uniformly and in a manner they believe is consistent with the interests of the Fund’s long-term shareholders. The Fund does not knowingly accommodate frequent purchases and redemptions by Fund shareholders. Although these policies are designed to deter frequent trading, none of these measures alone nor all of them taken together eliminate the possibility that frequent trading in the Fund will occur. Systematic purchases and redemptions are exempt from these policies.

Financial intermediaries (such as investment advisers and broker-dealers) often establish omnibus accounts in the Fund for their customers through which transactions are placed. The Fund has entered into “information sharing agreements” with these financial intermediaries, which permit the Fund to obtain, upon request, information about the trading activity of the intermediary’s customers that

invest in the Fund. If the Fund or its service providers identify omnibus account level trading patterns that have the potential to be detrimental to the Fund, the Fund or its service providers may, in their sole discretion, request from the financial intermediary information concerning the trading activity of its customers. Based upon a review of that information, if the Fund or its service providers determine that the trading activity of any customer may be detrimental to the Fund, they may, in their sole discretion, request the financial intermediary to restrict or limit further trading in the Fund by that customer. If the Fund is not satisfied that the intermediary has taken appropriate action, the Fund may terminate the intermediary's ability to transact in Fund shares. When information regarding transactions in the Fund's shares is requested by the Fund and such information is in the possession of a person that is itself a financial intermediary to a financial intermediary (an "indirect intermediary"), any financial intermediary with whom the Fund has an information sharing agreement is obligated to obtain transaction information from the indirect intermediary or, if directed by the Fund, to restrict or prohibit the indirect intermediary from purchasing shares of the Fund on behalf of other persons.

The Fund and its service providers will use reasonable efforts to work with financial intermediaries to identify excessive short-term trading in omnibus accounts that may be detrimental to the Fund. However, there can be no assurance that the monitoring of omnibus account level trading will enable the Fund to identify or prevent all such trading by a financial intermediary's customers. Please contact your financial intermediary for more information.

Redemption Fee

In an effort to discourage short-term trading and defray costs incurred by shareholders as a result of short-term trading, the Fund charges a 2.00% redemption fee on redemptions of shares that have been held for less than 30 days. The redemption fee is deducted from the Fund's sale proceeds and cannot be paid separately, and any proceeds of the fee are credited to the assets of the Fund from which the redemption was made. The fee does not apply to shares purchased with reinvested dividends or distributions. In determining how long shares of the Fund have been held, the Fund assumes that shares held by the investor the longest period of time will be sold first.

The redemption fee is applicable to Fund shares purchased either directly from the Fund or through a financial intermediary, such as a broker-dealer. Transactions through financial intermediaries typically are placed with the Fund on an omnibus basis and include both purchase and sale transactions placed on behalf of multiple investors. The Fund requests that financial intermediaries assess the redemption fee on customer accounts and collect and remit the proceeds to the Fund. However, the Fund recognizes that due to operational and systems limitations, intermediaries' methods for tracking and calculating the fee may be inadequate or differ in some respects from the Fund's. Therefore, to the extent that financial intermediaries are unable to collect the redemption fee, the Fund may not be able to defray the expenses associated with those short-term trades made by that financial intermediary's customers.

The Fund reserves the right to waive its redemption fee at its discretion when it believes such waiver is in the best interests of the Fund, including with respect to certain categories of redemptions that the Fund reasonably believes may not raise frequent trading or market timing concerns. These categories currently include, but are not limited to, the following: (i) participants in certain group retirement plans whose processing systems are incapable of properly applying the redemption fee to underlying shareholders; (ii) redemptions resulting from certain transfers upon the death of a shareholder; (iii) redemptions by certain pension plans as required by law or by regulatory authorities; (iv) systematic withdrawals; and (v) retirement loans and withdrawals.

Customer Identification and Verification

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account.

What this means to you: when you open an account, the Fund will ask your name, address, date of birth, and other information that will allow the Fund to identify you. This information is subject to verification to ensure the identity of all persons opening a mutual fund account.

The Fund is required by law to reject your new account application if the required identifying information is not provided.

In certain instances, the Fund is required to collect documents to fulfill its legal obligation. Documents provided in connection with your application will be used solely to establish and verify your identity.

Attempts to collect the missing information required on the application will be performed by either contacting you or, if applicable, your broker or financial intermediary. If this information cannot be obtained within a reasonable timeframe established in the sole discretion of the Fund, your application will be rejected.

Subject to the Fund's right to reject purchases as described in this prospectus, upon receipt of your application in proper form (or upon receipt of all identifying information required on the application), your investment will be accepted and your order will be processed at the next-determined NAV per share.

The Fund reserves the right to close or liquidate your account at the NAV next-determined and remit proceeds to you via check if it is unable to verify your identity. Attempts to verify your identity will be performed within a reasonable timeframe established in the sole discretion of the Fund. Further, the Fund reserves the right to hold your proceeds until your original check clears the bank, which may take up to 15 days from the date of purchase. In such an instance, you may be subject to a gain or loss on Fund shares and will be subject to corresponding tax implications.

Anti-Money Laundering Program

Customer identification and verification is part of the Fund's overall obligation to deter money laundering under federal law. The Fund has adopted an anti-money laundering compliance program designed to prevent the Fund from being used for money laundering or the financing of illegal activities. In this regard, the Fund reserves the right to: (i) refuse, cancel or rescind any purchase order; (ii) freeze any account and/or suspend account services; or (iii) involuntarily close your account in cases of threatening conduct or suspected fraudulent or illegal activity. These actions will be taken when, in the sole discretion of Fund management, they are deemed to be in the best interest of the Fund or in cases when the Fund is requested or compelled to do so by governmental or law enforcement authority. If your account is closed at the request of governmental or law enforcement authority, you may not receive proceeds of the redemption if the Fund is required to withhold such proceeds.

Unclaimed Property

Each state has unclaimed property rules that generally provide for escheatment (or transfer) to the state of unclaimed property under various circumstances. Such circumstances include inactivity (e.g., no owner-initiated contact for a certain period), returned mail (e.g., when mail sent to a shareholder is returned by the post office, or “RPO,” as undeliverable), or a combination of both inactivity and returned mail. Once it flags property as unclaimed, the Fund will attempt to contact the shareholder, but if that attempt is unsuccessful, the account may be considered abandoned and escheated to the state.

Shareholders that reside in the state of Texas may designate a representative to receive escheatment notifications by completing and submitting a designation form that can be found on the website of the Texas Comptroller. While the designated representative does not have any rights to claim or access the shareholder’s account or assets, the escheatment period will cease if the representative communicates knowledge of the shareholder’s location and confirms that the shareholder has not abandoned his or her property. A completed designation form may be mailed to the Fund (if shares are held directly with the Fund) or to the shareholder’s financial intermediary (if shares are not held directly with the Fund).

More information on unclaimed property and how to maintain an active account is available through your state or by calling 1-833-810-7345.

Dividends and Distributions

The Fund distributes its net investment income, and makes distributions of its net realized capital gains, if any, at least annually. If you own Fund shares on the Fund’s record date, you will be entitled to receive the distribution.

You will receive dividends and distributions in the form of additional Fund shares unless you elect to receive payment in cash. To elect cash payment, you must notify the Fund in writing prior to the date of the distribution. Your election will be effective for dividends and distributions paid after the Fund receives your written notice. To cancel your election, simply send the Fund written notice.

Taxes

Please consult your tax advisor regarding your specific questions about U.S. federal, state and local income taxes. Below is a summary of some important U.S. federal income tax issues that affect the Fund and its shareholders. This summary is based on current tax laws, which may change. This summary does not apply to shares held in an IRA or other tax-qualified plans, which are not subject to current tax. Transactions relating to shares held in such accounts may, however, be taxable at some time in the future.

The recently enacted tax legislation commonly referred to as the Tax Cuts and Jobs Act (the “Tax Act”) made significant changes to the U.S. federal income tax rules for taxation of individuals and corporations, generally effective for taxable years beginning after December 31, 2017. Many of the changes applicable to individuals are temporary and apply only to taxable years beginning after December 31, 2017 and before January 1, 2026. There are only minor changes with respect to the specific rules only applicable to a regulated investment company (or “RIC”), such as the Fund. The

Tax Act, however, made numerous other changes to the tax rules that may affect shareholders and the Fund. You are urged to consult with your own tax advisor regarding how the Tax Act affects your investment in the Fund.

The Fund intends to distribute substantially all of its net investment income and net realized capital gains, if any. The dividends and distributions you receive may be subject to federal, state, and local taxation, depending upon your tax situation. Distributions you receive from the Fund may be taxable whether you receive them in cash or you reinvest them in additional shares of the Fund. Income distributions, including distributions of net short-term capital gains but excluding distributions of qualified dividend income, are generally taxable at ordinary income tax rates. Distributions reported by the Fund as long-term capital gains and as qualified dividend income are generally taxable at the rates applicable to long-term capital gains currently set at a maximum tax rate for individuals of 20% (lower rates apply to individuals in lower tax brackets). Once a year the Fund (or its administrative agent) will send you a statement showing the types and total amount of distributions you received during the previous year.

You should note that if you purchase shares just before a distribution, the purchase price would reflect the amount of the upcoming distribution. In this case, you would be taxed on the entire amount of the distribution received, even though, as an economic matter, the distribution simply constitutes a return of your investment. This is known as “buying a dividend” and should be avoided by taxable investors.

Each sale of Fund shares may be a taxable event. The gain or loss on the sale of Fund shares generally will be treated as a short-term capital gain or loss if you held the shares for 12 months or less or as long-term capital gain or loss if you held the shares for longer. Any loss realized upon a taxable disposition of Fund shares held for six months or less will be treated as long-term, rather than short-term, to the extent of any long-term capital gain distributions received (or deemed received) by you with respect to the Fund shares. All or a portion of any loss realized upon a taxable disposition of Fund shares will be disallowed if you purchase other substantially identical shares within 30 days before or after the disposition. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

U.S. individuals with income exceeding \$200,000 (\$250,000 if married and filing jointly) are subject to a 3.8% tax on their “net investment income,” including interest, dividends, and capital gains (including capital gains realized on the sale of shares of the Fund).

The Fund (or its administrative agent) must report to the Internal Revenue Service (“IRS”) and furnish to Fund shareholders cost basis information for Fund shares. In addition to reporting the gross proceeds from the sale of Fund shares, the Fund is also required to report the cost basis information for such shares and indicate whether these shares have a short-term or long-term holding period. For each sale of Fund shares, the Fund will permit shareholders to elect from among several IRS-accepted cost basis methods, including the average cost basis method. In the absence of an election, the Fund will use the average cost basis method as the default cost basis method. The cost basis method elected by the Fund shareholder (or the cost basis method applied by default) for each sale of Fund shares may not be changed after the settlement date of each such sale of Fund shares. Fund shareholders should consult with their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how cost basis reporting applies to them. Shareholders also should carefully review the cost basis information provided to them by the

Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns.

The Fund may be subject to foreign withholding taxes with respect to dividends or interest the Fund receives from sources in foreign countries. If more than 50% of the total assets of the Fund consists of foreign securities, the Fund will be eligible to elect to treat some of those taxes as a distribution to shareholders, which would allow shareholders to offset some of their U.S. federal income tax. The Fund (or its administrative agent) will notify you if it makes such an election and provide you with the information necessary to reflect foreign taxes paid on your income tax return.

The Fund may invest in REITs. The Tax Act treats “qualified REIT dividends” (i.e., ordinary REIT dividends other than capital gain dividends and portions of REIT dividends designated as qualified dividend income eligible for capital gain tax rates) as eligible for a 20% deduction by non-corporate taxpayers. This deduction, if allowed in full, equates to a maximum effective tax rate of 29.6% (37% top rate applied to income after 20% deduction). Pursuant to recently proposed regulations on which the Fund may rely, distributions by the Fund to its shareholders that are attributable to qualified REIT dividends received by the Fund and which the Fund properly reports as “section 199A dividends,” are treated as “qualified REIT dividends” in the hands of non-corporate shareholders. A section 199A dividend is treated as a qualified REIT dividend only if the shareholder receiving such dividend holds the dividend-paying RIC shares for at least 46 days of the 91-day period beginning 45 days before the shares become ex-dividend, and is not under an obligation to make related payments with respect to a position in substantially similar or related property. The Fund is permitted to report such part of its dividends as section 199A dividends as are eligible, but is not required to do so.

REITs in which the Fund invests often do not provide complete and final tax information to the Fund until after the time that the Fund issues a tax reporting statement. As a result, the Fund may at times find it necessary to reclassify the amount and character of its distributions to you after it issues your tax reporting statement. When such reclassification is necessary, the Fund (or its administrative agent) will send you a corrected, final Form 1099-DIV to reflect the reclassified information. If you receive a corrected Form 1099-DIV, use the information on this corrected form, and not the information on the previously issued tax reporting statement, in completing your tax returns.

Because each shareholder’s tax situation is different, you should consult your tax advisor about the tax implications of an investment in the Fund.

More information about taxes is in the SAI.

Additional Information

The Trust enters into contractual arrangements with various parties, including, among others, the Fund’s investment adviser, custodian, transfer agent, accountants, administrator and distributor, who provide services to the Fund. Shareholders are not parties to, or intended (or “third-party”) beneficiaries of, any of those contractual arrangements, and those contractual arrangements are not intended to create in any individual shareholder or group of shareholders any right to enforce the terms of the contractual arrangements against the service providers or to seek any remedy under the contractual arrangements against the service providers, either directly or on behalf of the Trust.

This prospectus and the SAI provide information concerning the Trust and the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this

information from time to time. Neither this prospectus, the SAI or any document filed as an exhibit to the Trust's registration statement, is intended to, nor does it, give rise to an agreement or contract between the Trust or the Fund and any shareholder, or give rise to any contract or other rights in any individual shareholder, group of shareholders or other person other than any rights conferred explicitly by federal or state securities laws that may not be waived.

Financial Highlights

The table that follows presents performance information about Institutional Shares of the Fund. This information is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The information provided below has been audited by PricewaterhouseCoopers LLP, independent registered public accounting firm of the Fund. The financial statements and the unqualified opinion of PricewaterhouseCoopers LLP are included in the 2019 Annual Report of the Fund, which is available upon request by calling the Fund at 1-833-810-7345.

Because Retail Shares of the Fund had not commenced operations during the fiscal year ended September 30, 2019, financial highlights are not available.

Selected Per Share Data & Ratios

For a Share Outstanding Throughout the Period

	Period Ended September 30, 2019*
Institutional Shares	
Net Asset Value, Beginning of Period	\$ 10.00
Income (Loss) from Operations:	
Net Investment Loss ⁽¹⁾	(0.04)
Net Realized and Unrealized Gain	1.11
Total from Operations	1.07
Net Asset Value, End of Period	\$ 11.07
Total Return†	10.70%

Ratios and Supplemental Data

Net Assets, End of Period (Thousands)	\$ 50,884
Ratio of Expenses to Average Net Assets	0.99%**
Ratio of Expenses to Average Net Assets (Excluding Waivers)	1.47%**
Ratio of Net Investment Loss to Average Net Assets	(0.52)**
Portfolio Turnover Rate	65%***

(1) Per shares calculations were performed using average shares for the period.

* The Fund commenced operations on January 16, 2019.

** Annualized.

*** Portfolio turnover is for the period indicated and has not been annualized.

† Total return is for the period indicated and has not been annualized. Total return would have been lower had certain expenses not been waived and assumed by the Adviser during the period. Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

Privacy Notice
This information is not part of the prospectus.

The Fund recognizes and respects the privacy concerns of its customers. The Fund collects nonpublic personal information about you in the course of doing business with shareholders and investors. “Nonpublic personal information” is personally identifiable financial information about you. For example, it includes information regarding your social security number, account balance, bank account information and purchase and redemption history.

The Fund collects this information from the following sources:

- Information we receive from you on applications or other forms;
- Information about your transactions with us and our service providers, or others;
- Information we receive from consumer reporting agencies (including credit bureaus).

What information the Fund discloses and to whom the Fund discloses information.

The Fund only discloses nonpublic personal information the Fund collects about shareholders as permitted by law. For example, the Fund may disclose nonpublic personal information about shareholders:

- To government entities, in response to subpoenas or to comply with laws or regulations.
- When you, the customer, direct the Fund to do so or consent to the disclosure.
- To companies that perform necessary services for the Fund, such as shareholder servicing centers that the Fund uses to process your transactions or maintain your account.
- To protect against fraud, or to collect unpaid debts.

Information about former customers.

If you decide to close your account(s) or become an inactive customer, we will adhere to the privacy policies and practices described in this notice.

How the Fund safeguards information.

The Fund conducts its business affairs through trustees, officers and third parties that provide services pursuant to agreements with the Fund (for example, the service providers described above). We restrict access to your personal and account information to those persons who need to know that information in order to provide services to you. The Fund or its service providers maintain physical, electronic and procedural safeguards that comply with federal standards to guard your nonpublic personal information.

Customers of other financial institutions.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary will govern how your non-public personal information will be shared with non-affiliated third parties by that entity.
